Sewing

Volunteers needed! If you can thread a needle, and tie a knot, you are qualified! The sewing group is looking for more volunteers to help knot quilts. Our numbers have dwindled, and although we have done about 100 quilts for Lutheran World Relief, we need more people to do the knotting as we start our Christmas Cheer quilts in June. Teachers, high schoolers, college students, moms and even dads, who are "home" for the summer, please give us some of your time. Our sewing group meets on the second and fourth Tuesday of every month, so in June that is June 9th and 23rd. We start at 9:00 a.m. and are done by noon. You can even come late and leave early to fit into your schedule. Come help us Do God's Work with Your Hands!

Saints & Sinners Trivia Night

Start making your teams! Saints & Sinners Trivia Night will be TUESDAY, June 23rd from 6-8pm at Knotty Vines Winery! Come join us for fellowship & fun!

Parkinson's Group Summer Meetings

July 7th @ 1pm: The speaker will be Alex Munger, Licensed Massage Therapist. The topic will be about Massage Therapy.

August 4th @ 1pm: The speaker will be from the Fulton County Physical Therapy Rehab Department and the topic will be LSVT BIG:Physical Therapy for PD.

THANK YOU ...

Just wanted to take a moment to say "Thank You" to my church family who sent cards, messages, and prayers at the passing of my mom, Ruth Lange. This is a difficult time. It means a lot knowing that I have my church family there for support. We are so blessed!
Thank You again,

Steve, Pam, & Ethan Meyers
Josh, Mary, & Family

Brothers and Sisters of St. Martin's,
On behalf of my whole family, I want to offer our heartfelt thanks for the love and support you have shown us following Mom's death on April 10. Your prayers, cards, meals, hugs, and quiet acts of kindness have carried us in ways we will never forget. In a time of grief, you have been a living reminder of Christ's promise to be near the brokenhearted. Thank you for making Mom a part of your faith community for the past 25 years.

We are especially grateful for the dedication of the St. Martin's staff, who stepped in with such grace and steadiness, and for the many volunteers who offered their time, presence, and compassion to make things happen. You embodied the church at its best—bearing one another's burdens and sharing one another's sorrows.

As we give thanks for your care, we also hold close the many families in our congregation who have experienced loss the past 18 months. There have been more goodbyes than any of us hoped to face. May God's comfort surround each of you, and may the hope of the resurrection continue to steady our steps as we walk this road together.

With deep gratitude and love,
The Family of Pat Basselman

2026-2027 Concert Series

St. Martin's Lutheran Church is proud to announce the 2026–2027 season of the St. Martin's Concert Series as we celebrate the series' 10th Anniversary Season. For the past decade, the series has brought outstanding musicians and meaningful musical experiences to the Archbold community, enriching the cultural life of Northwest Ohio while supporting St. Martin's mission of hospitality, beauty, and worship through the arts. What began as a small local offering has grown into a beloved tradition featuring nationally recognized artists, regional talent, and diverse programming for audiences of all ages.

This milestone season reflects both celebration and gratitude—celebrating ten years of music-making and expressing thanks to the many supporters, volunteers, sponsors, and audience members who have made the series possible. All concerts are free and open to the public, continuing St. Martin's commitment to making high-quality music accessible to everyone.

The season begins Friday, July 3, 2026, at 7:00 p.m. at Founders Hall at Sauder Village with the internationally acclaimed The Raleigh Ringers. This Emmy-nominated concert handbell choir from North Carolina will bring an energetic and entertaining performance to kick off the anniversary season. The concert is generously sponsored by the Archbold Area Foundation.

On Sunday, September 27, 2026, at 3:00 p.m., acclaimed organist Dr. David Cherwien will lead a Hymn Festival featuring St. Martin's Chancel Choir. This joyful afternoon of congregational singing and inspiring music celebrates the rich tradition of hymnody and the church's musical heritage.
The series continues Sunday, November 22, 2026, at 3:00 p.m. with mezzo-soprano Marie Engle, a Northwest Ohio native, presenting a varied vocal recital featuring art songs, opera selections, and more. This concert is generously sponsored by the Black Swamp Arts Council.

On Sunday, February 21, 2027, at 3:00 p.m., Dr. Cole Burger, Professor of Piano at Bowling Green State University, will present an engaging piano recital featuring music ranging from classical masterworks to popular favorites.

The 10th Anniversary Season will conclude in spring 2027 with a special Season Finale concert, to be announced.
All concerts are held at St. Martin's Lutheran Church unless otherwise noted, and receptions will follow each performance. Additional information can be found at the-welcome-place.org

NEWS AND OUR VIEWS

GABAPENTIN AND DEMENTIA RISK

Many people take gabapentin to relieve pain caused by shingles or diabetes. It's also commonly prescribed for a range of other pain conditions, although the evidence supporting those uses is not as strong. Gabapentin is generally considered safe, with side effects such as dizziness, drowsiness and fluid retention (edema). But recent studies suggest that long-term use may be linked to a higher risk of dementia.

A 2023 study that followed more than 200,000 adults found that people who took gabapentin or a similar drug had a 45% greater risk of developing dementia. Similarly, a 2025 study of more than 26,000 adults found that receiving six or more gabapentin prescriptions was linked to a 29% higher risk of dementia and an 85% higher risk of mild cognitive impairment within 10 years.

In both studies, longer use was linked to higher risk. Risk also was greater for younger adults, with one study finding that people ages 35 to 64 were 2 to 3 times more likely to develop dementia than were those who did not take gabapentin, cognitive impairment before starting gabapentin, which suggests that gabapentin may not be causing the dementia. Another component related to gabapentin use may be at play.

So far, these studies only show an association but not proof that taking gabapentin causes dementia. People who take it for pain often manage several medical issues and take medications that also may affect brain health. More research is needed to clarify gabapentin's role alongside other risk factors.

If you take gabapentin, ask your healthcare team whether it's the best choice for your pain condition. If you have chronic pain, these findings don't mean you should stop your medication. But these findings might urge you to review your treatment plan, ensuring that the benefits of the medication still outweigh the risks. ■

CAN ASPIRIN REDUCE COLORECTAL CANCER RECURRENCE RISK?

A recent study from the *New England Journal of Medicine* found that a lower daily dose of aspirin might benefit people The findings applied specifically to people with changes to the PI3KCA gene. These changes cause a crucial signaling pathway in the body to become overactive, thereby promoting the growth of cancer cells. These changes occur in over 1 in 3 people with colorectal cancer.

Study participants were assigned to either daily aspirin therapy (160 milligrams, roughly the equivalent of two baby aspirin) or a placebo for three years. During this time, the cancer recurred in roughly 14% to 17% of participants who took placebo. It recurred in only 7.7% of those who took the aspirin. Overall, those who took aspirin were 55% less likely to have the cancer return. Severe side effects related to aspirin use, such as gastrointestinal bleeding, were rare.

According to Mayo Clinic experts, the benefits of using aspirin in situations such as this may outweigh the risks. If you are diagnosed with colorectal cancer and know your genetic status, talk with your healthcare team to see if an option such as aspirin therapy is worth considering. But it's important to note that this genetic testing isn't standard, and current
